Experience

Backend Developer Intern <i>ISKCON Hubli, Visakhapatnam</i>	Feb 2025 – Jun 2025
---	---------------------

- Designed and implemented RESTful APIs using Node.js and Express.js for backend workflows and service integration.
- Integrated MongoDB with optimized schema design for scalable data management.
- Integrated Gupshup WhatsApp APIs to automate user notifications and communication workflows.
- Deployed backend services on Google Cloud Run and frontend applications on Vercel.
- Integrated Razorpay payment gateway for secure payment processing and transaction verification.
- Collaborated using Git-based version control and participated in code reviews.

Projects

Freelancer Marketplace Platform <i>MongoDB, Express.js, React.js, Node.js</i>	Full-Stack Developer
---	----------------------

- Developed a full-stack marketplace platform connecting clients and freelancers.
- Designed MongoDB schemas and backend workflows for users, projects, bids, and related entities.
- Implemented REST APIs for user authentication, project management, bidding, and user interactions.
- Integrated GitHub activity analysis and Cloudflare Workers AI for project evaluation.

Volunteer Relationship Management System <i>Node.js, Express.js, MongoDB, Gupshup.io API</i>	Backend Developer
--	-------------------

- Developed a volunteer relationship management system that streamlined registration and management of 500+ volunteers and 20+ coordinators.
- Implemented role-based access control and workflow automation.
- Integrated Gupshup.io API for real-time communication and notifications.

Achievements

- Developed the web interface for a National Hackathon platform onboarding **500+ teams**.
- Solved **400+ Data Structures and Algorithms problems** on LeetCode.
- Qualified GATE 2026 (Computer Science).
